To whom it may concern,

Re: **Biopuremax (2015) Ltd. - Purified Water (PW) Production System - Recommendation**

Dear Sirs:

Kamada Ltd ("**Kamada**") is an Israeli biopharmaceutical company, focused on plasma-derived protein therapeutics.

Biopuremax (2015) Ltd. ("**Biopuremax**") is one of Kamada's services providers, which implemented the above-referenced system in Kamada's manufacturing site in Beit-Kama.

In my position as Kamada's Director of Engineering, I am directly responsible for all aspects related to the water system at Kamada's manufacturing plant, including the ongoing operation, maintenance and validation of a capacity of 4.5 m³/hr, is being operated at Kamada's manufacturing plant since 2018. Kamada's manufacturing plant has benefited from the low maintenance, low operational cost and high reliability, as a result of such Biopuremax system.

Biopuremax performance during the installation and implementation of such system was made impeccable. Biopuremax provided a cutting edge technology that works and meet our needs perfectly. Moreover, Biopuremax were professional and accommodating due to their excellent interpersonal skills and non-compromising results orientation.

Biopuremax have an extensive experience in the pharma industry and specifically in water systems. Their handling of specific-site issues in the design stage, as well as installation, operational and validation stages was highly professional. Also worth to further empathize of the flawlessly passing of such system of the applicable PQ test. Moreover, such water system was successfully passed the Mistry of Health's audit with no remarks whatsoever.

In the light of the above, I hereby recommend of Biopuremax water system and services.
